

# Energy Solutions

Guaranteed reduced operational costs based on energy performance contracting and when needed, no upfront investment through third party financing

Innovative Approach to  
Lowering Energy Costs and  
Cutting Emissions—With  
Guaranteed Savings

**Johnson Controls has a holistic approach when it comes to Energy Audits and Performance Contracting**

## Energy Audits

The energy audit is a first step to provide insight into the potential energy and operational savings

- HVAC Systems
- Building System Operation
- Building Envelope
- Building Automation and Control
- Lighting and Lighting Control
- Pumps and Motors
- Water Consumption
- Domestic Hot Water Systems
- Process Equipment
- Renewable Energy Systems
- Utility Management and Metering

## Decades of Energy Performance Contracting

Worldwide Johnson Controls has been delivering energy performance contracting projects since the 80's and with:

- Over **3,000** executed energy performance contracts
- Around **545** active performance contracts

The power behind **your mission**

## About Johnson Controls

At Johnson Controls, we transform the environments where people live, work, learn and play. From optimizing building performance to improving safety and enhancing comfort, we drive the outcomes that matter most. We deliver our promise in industries such as healthcare, education, data centers and manufacturing. With a global team of 100,000 experts in more than 150 countries and over 130 years of innovation, we are the power behind our customers' mission. Our leading portfolio of building technology and solutions includes some of the most trusted names in the industry, such as Tyco®, YORK®, Metasys®, Ruskin®, Titus®, Frick®, Penn®, Sabroe®, Simplex®, Ansul® and Grinnell®.
